

AlwaysUp

Easily run your mission-critical applications 24/7 as Windows Services

<https://www.CoreTechnologies.com/products/AlwaysUp/>

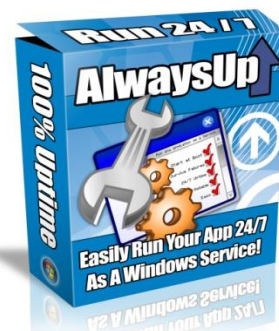

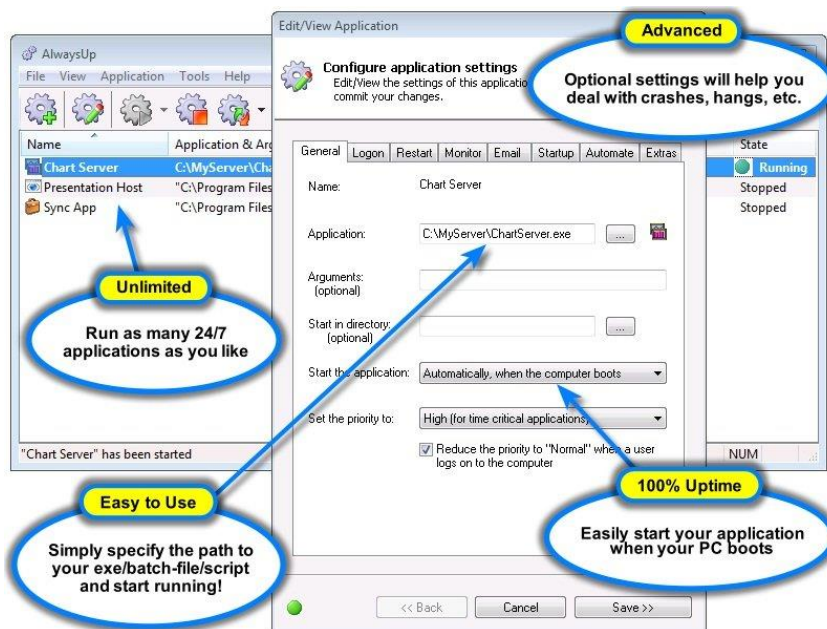

AlwaysUp will help you to...

- Start your important applications **automatically** when your PC boots;
- **Keep them running 24/7/365**, even if they are unstable and crash, hang or terminate unexpectedly;
- **Avoid the dreaded "3 AM" calls** when critical applications fail;
- Provide **superior service** to your clients/users!

AlwaysUp is...

- Very **easy to use** – setup your application in minutes;
- **Trusted** and **used every day** by many of the world's best known companies and universities;
- **Fully supported** by our experienced technical team, who are on hand to answer your most detailed questions and **help you get set up, free of charge**;

Our customers...

"Your product was very simple to setup and hasn't failed since I installed it."

— Jack Slocum, Surface Finish Technologies

"AlwaysUp is a great solution for us. We have had no downtime with the application that AlwaysUp is controlling"

— Luke Prindle, Wright-Patt Credit Union

"I just want to express my appreciation with AlwaysUp and its companion AlwaysUpWebService. They have solved a complicated problem in an elegant and extensible way."

— Jens Riboe, Verizon Business

"I am loving the AlwaysUp Solution. I have converted all of our batch files which run on different servers to be run as services and I am now experiencing 100% availability and 24 hour uptimes."

— Deon van Rhyn, PAYG IT Pty Ltd.

Easy to use · Reliable · Supported · Guaranteed
Peace of mind, for less than \$50!
