

Why Purchase AlwaysUp OEM?

AlwaysUp is High-Quality Software

AlwaysUp was designed and implemented by senior software engineers with over 20 years of real-world experience developing robust, mission-critical applications. Our many thousands of clients (such as IBM, Volvo, and ExxonMobil) are a testament to the high quality of our user-friendly software and **we stand by it without reservation.**

And when compared to other solutions like Microsoft's Srvany, AlwaysUp comes out the clear winner. Dig into the details at our web site:

<http://www.CoreTechnologies.com/products/AlwaysUp/srvany.html>

AlwaysUp offers an Exceptional Return on Investment

AlwaysUp offers a great value when compared to the cost of building and maintaining your own in-house solution. For example, let's suppose that it takes one of your staff two 40-hour weeks to complete your own utility. At a cost of \$50/hour, that is already \$4,000, an **almost 3-fold price increase** versus buying our established, tested and supported technology. Be sure to substitute your own numbers to see how much you will save!

AlwaysUp comes with Expert, Professional Support

Feel confident knowing that our team is here to help you with **setup, integration**, and those **problematic client installations**. As experts in Windows Services on Windows 10/8.1/8/7/Vista and Server 2012/2008, we have seen it all. Our highly technical and courteous staff is available by e-mail or phone (**toll-free in the USA**) to address your current and evolving needs. **Why take a chance on similar software if you can't get helpful support when you need it?**

AlwaysUp is Risk-Free – Try before you Buy

Take advantage of our **unrestricted 30-day trial** to ensure that AlwaysUp will satisfy your requirements before you spend a dime! And please feel free to contact us if you need a longer evaluation period.
